Environmental Issues and Policy: Exploring Past, Present, and Future Socioecological Relations presents students with a collection of essays written by experts in the field that introduce key environmental issues while also examining the relationship between society, its environment, and the resultant issues that emerge at the local, regional, and global scale. Specific topics addressed within the text include ozone depletion, water pollution, food security, climate change, ecosystem conservation, urban growth, and more.

Monalisa Chatterjee is an environmental studies lecturer in the Dornsife College of Letters, Arts and Sciences at the University of Southern California. She holds a Ph.D. in geography from Rutgers University.

Ekaterina Svyatets is an assistant teaching professor of environmental studies in the Dornsife College of Letters, Arts and Sciences at the University of Southern California. She holds a Ph.D. in politics and international relations from the University of Southern California.

TABLE OF CONTENTS

Introduction

Monalisa Chatterjee, Ph.D. and Ekaterina Svyatets, Ph.D.

Chapter 1 Stratospheric Ozone Depletion: Global Cooperation to Resolve an Anthropogenic Threat to the World's Health and Well-being

Robyn M. Lucas, Ph.D. and Rachael M. Rodney Harris, Ph.D.

Chapter 2 The Quiet Dismantling of Federal Clean Water Regulations: Media Coverage and The Clean Water Act

Rebecca Paley-Williams and Maria Armoudian, Ph.D.
